You will be presented a screen giving you an option to send your results to a school other than the school at which you are testing. If you want to send your results to other schools, highlight and move those selected schools to the right-hand column. REMEMBER: the school at which you are testing will automatically receive your results. You do not need to select another school if you do not want to participate in the option of sending your score report to other schools.

Click on Submit at the bottom of the screen.
