## 024L • INTRODUCTION TO CIRCUIT ANALYSIS LAB 1.0 unit

Total Lab 54 hours

Advisory: MATH 003B, PHYS 004B

Corequisite: ENGR 024

Acceptable for credit: University of California, California State University

This course is an introduction to the basic instruments and experimental techniques used in electric circuit analysis, such as circuit simulation software. This course is primarily for engineering transfer students. *Grade Only.*

## 025 • ENGINEERING GRAPHICS AND DESIGN 4.0 units

Total Lecture 54 hours, Total Lab 54 hours

Acceptable for credit: University of California, California State University

This course develops graphical visualization and design skills by applying graphics based engineering methods. The course also teaches engineering design by applying the conceptual design process and integrating graphics into design projects. Graphics assignments develop sketching, manual drafting, and computer aided drafting (CAD) skills. This course is primarily for engineering transfer students. *Grade Only.*

## 026 • ENGINEERING MATERIALS 4.0 units

Total Lecture 54 hours, Total Lab 54 hours

Prerequisite: CHEM 001A, MATH 003B, PHYS 004A

Acceptable for credit: University of California, California State University

This course provides an introduction to the properties of engineering materials and their relation to the internal structure of materials. Mechanical, electrical, and optical properties of metals, ceramics, polymers, and semiconducting materials are addressed. A laboratory is included which uses experiments on campus and field trips to local industry. This course is primarily for engineering transfer students. *Grade Only.*

## 030 • INTRODUCTION TO COMPUTING FOR ENGINEERS 4.0 units

Total Lecture 54 hours, Total Lab 54 hours

Advisory: MATH 003A and CIS 002

Acceptable for credit: University of California, California State University

This course introduces engineering problem solving using computer programming. Computers are used to solve a variety of problems ranging from evaluating a simple function to solving a system of linear equations. A disciplined approach to problem solving using an industry standard high level language such as C++ is presented. Topics include: problem solving strategies, modular programming design, sample engineering problems, and application of high-level language fundamentals. This course is primarily for engineering transfer students. *Pass/No Pass Option.*

## 051 • INTRODUCTION REMOTE SENSING 4.0 units

Total Lecture 54 hours, Total Lab 72 hours

Advisory: ENGR 050

Acceptable for credit: California State University

Remote sensing is the science and art of acquiring information of an object, area, or phenomenon without being in direct contact with that object, area, or phenomenon. This course will provide students with an overview of the field of remote sensing and present the ways in which remotely sensed data can be used in scientific investigations and resource management. Topics addressed will include the electromagnetic spectrum, sensor systems, image analysis, applications, and the integration with Geographic Information Systems (GIS). *Pass/No Pass Option.*

## ENGLISH (ENGL)

DIVISION: Language Arts  
DEPARTMENT: English  
DEAN: Tim Karas

The English department teaches skills that are universal to every other discipline. Taking courses in English increases a student's chances of success in every other area. The ability to read effectively and to write expressively will prove invaluable for any student.

Student Learning Outcomes:

Upon completion of the sequence of English composition courses, students will develop the skills and confidence to write successfully in academic and workplace settings:

- Write focused, organized, well-developed essays that support clear thesis statements and demonstrate competence in standard English grammar and usage;
- Demonstrate critical thinking skills by analyzing and evaluating academic essays and literature;
- Formulate and clearly communicate their positions on diverse issues;
- Write a research paper that demonstrates the effective evaluation, integration, and documentation of sources.

Possible Career Options:

- |                       |                            |

| • Law                 | • Technical Communications |
| • Library Science     | • Writing                  |

Some career options require more than two years of college study.

Highlights:

- Composition courses designed for all levels of ability.
- Transfer level literature and creative writing courses that meet CSU & UC requirements.
- On-line courses in composition & workplace writing.
- Experienced, innovative faculty, dedicated to student success.

## ENGLISH (ENGL)

Placement in any English class is based on a placement test for new students or a grade of C or better in a previous course for continuing students. Students needing to take a placement test should contact the Counseling Center, room E1-301.

### 001A • ENGLISH COMPOSITION 3.0 units

Total Lecture 54 hours
