

**Mission College
Registered Nursing (LVN-RN) Program
Textbook Ordering Information**

The textbooks required for the Registered Nursing (LVN-RN) Program may be purchased through the Mission College Bookstore or on-line through the approved Elsevier portal. If another non-approved online vendor is used, please make sure that the textbook editions match the textbook list. Please note that the required textbooks come from several different publishers, thus the Elsevier portal contains a majority of the books, but not all of them. You may purchase the textbooks from each of the different publishers' website, which may provide you with a discount.

To order the textbooks on-line through Elsevier:

1. Go to www.shopelsevier.com
2. Select "purchase course material"
3. Type in school name: "Mission College"
4. Select your term: "Summer 2009" for the summer role transition course texts
5. Select your course: "Mission College role transition bundle"
6. Select "Search" This screen will list all the books in the bundle. RN Select is the E-Book component of the bundle, which provides you with the electronic version of the books. All your books will be available in both print and electronic format, but you will not be able to only purchase the electronic version of the books
7. Select "In Cart"
8. Proceed to check out
9. The textbooks will be delivered directly to your home

Please note: You will follow the same process for purchasing your books for the fall and spring semester courses books, but you will select "Fall 2009" as the term and the course is listed as "Mission College RN"
